(DE) Angaben zur Montageanleitung
Zielgruppe dieser Montageanleitung DE

Die gezeigten Produkte sind nur durch zugelassene Fachhandwerksbetriebe unter Beachtung dieser Montageanleitung sowie der maßgebenden Normen, Richtlinien, Bestimmungen und Vorschriften zu installieren, einzustellen und in Betrieb zu nehmen. Daher richtet sich diese Montageanleitung an qualifizierte Sanitär-Installateure.

Pflichten im Umgang mit dieser Montageanleitung
Jede Person, die Arbeiten an dem beiliegenden Produkt vornimmt, es insbesondere montiert, reinigt oder entsorgt, muss den vollständigen Inhalt dieser Montageanleitung zur Kenntnis genommen und verstanden haben.

Bestimmungsgemäßer Gebrauch
Zum bestimmungsgemäßen Gebrauch gehört die Beachtung aller maßgebenden Normen, Richtlinien, Bestimmungen und Vorschriften sowie der Informationen in dieser Montageanleitung, insbesondere die Beachtung der Sicherheitshinweise. Jede andere Verwendung gilt als nicht bestimmungsgemäß und kann zu Sachschäden oder sogar zu Personenschäden führen. Der Hersteller schließt die Haftung für Schäden, die durch nicht bestimmungsgemäßen Gebrauch entstehen, aus.

Stand 04.2024

(EN) Details about the installation instructions
Target group for these installation instructions EN

The products are intended to be installed only by licensed sanitary fitters, under the acknowledgement of these installation instructions as well as the given norms, rules, and regulations. Due to the strict guidelines and the precision work that is required when installing the products, these instructions are intended for licensed sanitary fitters.

Obligations related to these installation instructions
Anyone who installs, cleans, or disposes of the accompanying products, must have acknowledged and understood the complete installation instructions.

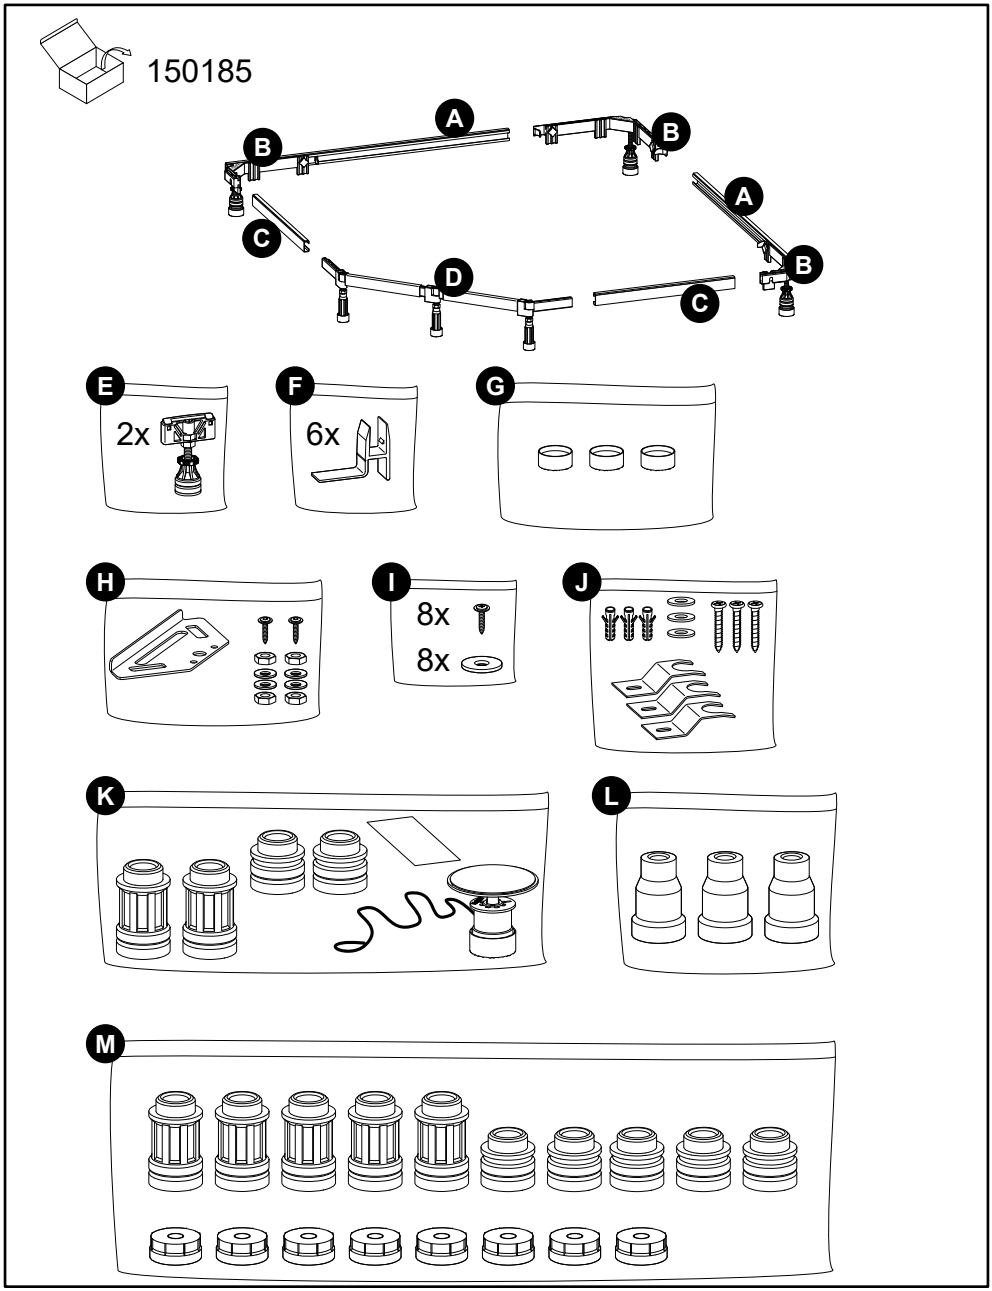

Proper use
Proper use includes heeding all of the norms, rules, and regulations, as well as other information included in these installation instructions, particularly the safety instructions. Any other use is regarded as improper and can result in property damage or even personal injuries. The manufacturer will not accept liability for any damage caused by improper use.

Status 04.2024

					
DE	Gefahr	Achtung	Hinweis	Auf Dichtheit prüfen/achten	Warnung vor elektrischer Spannung

Info

DE

Mineralguss:

Bei der Montage von Mineralgusswannen muss gewährleistet sein, dass alle 60 cm ein tragender Auflagepunkt für den Montagerahmen vorhanden ist. Duschwannen mit nicht tragenden Verrippungen sind nicht geeignet. Die Duschwanne muss vom Hersteller für die Montage mit Wannenfüßen freigeben sein.

Acryl:

Der Montagerahmen (Art.-Nr. 150 185) ist ausgelegt für Duschwannen, deren Ebenheit der Randoberfläche und/ oder deren Geradheit der Randunterkante eine Abweichung von 3 mm nicht überschreitet. Prüfverfahren und Vorgehen zur Ermittlung der geometrischen Abweichungen siehe DIN EN 249:2010 Anhang A. Üblicherweise wird dieses Maß eingehalten, ist aber eigenverantwortlich zu überprüfen.

GB

Mineral cast:

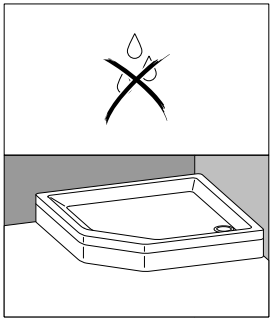

When installing mineral cast trays, ensure that there are sufficient load bearing points at distances of 60 cm from each other for the installation frame. Shower trays with non-load bearing ribs are not suitable. The shower tray must be approved by the manufacturer for installation with bathtub feet.

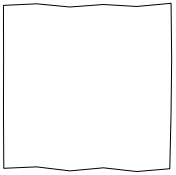

Acrylic:

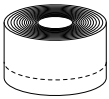

The Universal installation frame (art.-no. 150 185) is designed for shower trays where the top edge and/or the bottom edge do not deviate by more than 3 mm from the horizontal plane. For requirements and methods regarding the determination of geometric deviations, see DIN EN 249:2010 Annex A. While the required dimensions are normally met, the fitter is still required to verify them.
